

WEFUND

MULTI-CHAIN
COMMUNITY
CROWDFUNDING
INCUBATOR & LAUNCHPAD

WHAT IS **WeFund?**

Free Incubation Service

Launchpad with Investor Security

Real-World and Blockchain Impact Projects

100% crowdfunding transparency to
minimize risk and hold project
creators accountable

WeFund MISSION

Host high-quality projects that align
with WeFund's investor community and
have real-world impact in the areas of :

Environment | Health | Defi | Education
| Social | And more

Pump & Dump Schemes

Incubators & Launchpads Have High Commission Fees

Undelivered Achievement

PROBLEM

Failed Investments Unable to Return Remaining Funds

High-barrier to Entry Such as High Minimum Investment Amounts

SOLUTION

ZERO fees/commission for projects to incubate and crowdfund with WeFund

Every project has dedicated smart contract to manage funds directly on Nexo Protocol – WeFund does not touch funds raised

Milestone fund release system – funds raised are released per milestone by vote of project investors

HOW IT WORKS

LAUCHPAD

New
Project

WeFund Team &
Advisors

Fundraising

- Yield benefit
- Secure & refundable deposits

Project Delivery

**Project milestone
smart contracts
with automatic fund
release**

**Investor
approval**

NO

Remaining funds
returned to backers
with **Nexo yield**

Deliver a winning project with
full community approval,
transparency, and minimal
risk.

YES

TOKENOMICS & VESTING SCHEDULE

Tokens	Tokenomics Allocation	# of Tokens	Released on TGE	Lock-Up Period (Months)	Vesting – Daily Linear Release (Months)

ROADMAP

WORLDWIDE

Q1

- Platform 1.0 launch
- Community registration system
- Investor project approval
- Create a project milestone system
- Milestone money release
- Starting real-world project incubation
- 10 projects for incubation and fundraise

Q2

- Platform update 2.0
- Real-world project implementation
- Relaunch WeFund from Terra to Multi-chain system
- Implement Juno blockchain (Keplr Wallet)
- Trust Wallet integration
- Metamask wallet integration (Polygon & BSC)
- USDC, USDT, USDD, and BUSD payment options
- Tron blockchain integration (TronLink)

Q3

- Platform update 3.0
- Fantom blockchain integration
- EOS blockchain integration
- Hedera Hashgraph blockchain integration
- OneLedger blockchain integration
- IOTA blockchain integration
- Market for Initial Offering
- Complete Seed/Private sale fundraise
- NFT launchpad

Q4

- Have successful fundraising for the first 10 projects
- Startup pitch competition for real-world projects
- Platform update 4.0
- Implement Scam Scanner
- Launch NFT marketplace
- Add 2 blockchain connections
- TGE

- Completed
- In Process

Secure & refundable
deposits

Minimized
investment risk

Blockchain projects with
real-world impact

Milestone fund
release system

Stablecoin fundraising

No fee/commission from projects
